### **An exceptional environment for your employees**

Welcome to Vélizy-Villacoublay! Did you know that a national forest accounts for one third of the municipal district? In addition, 65 hectares of public green spaces, squares, parks and gardens are regularly maintained and improved by the town council. This ongoing effort has earned the town a four-flower ranking in the national floral town programme.

In addition, Vélizy-Villacoublay has one of the largest retail concentrations in Europe, with three shopping centres and a large number of local services. It also offers a full range of cultural and sports facilities and services. The Vélizy-Villacoublay Town Council Department of Economic Development, Employment and Transport is firmly committed to being attentive to companies and ensuring their needs are satisfied. We're on hand to make life easier for your entire workforce.
